- ✓ with tea - guarana extract
- ✓ with natural caffeine (10 mg/100 mL)
- ✓ rich in antioxidants
- ✓ pasteurized at 80 °C
- ✓ 100% natural

Why discard the healthiest ingredients of fruits and vegetables – the pomace?

The valuable dietary fibers left over from pressing are usually discarded. They deserve a better fate.

Discover another of our innovations, the FiberVia high-fiber snacks, made from the upcycled pomace, the side-product of JuuTee!

the natural energy drink

POWER FOR CHALLENGES

Production snapshots

An energy drink 100% natural with no additives? We created it!

The freshly pressed apple and beetroot juice provides the necessary energy, while the tea – guarana extract the caffeine.

JuuTee helps to stay focussed for a longer time and provides all health benefits of consuming tea, guarana and fruit-vegetable juices.

Contains caffeine.
Not recommended for pregnant women, nursing mothers, heart patients and children.

Health benefits of tea and guarana are attributed to a group of antioxidants.

JuuTee drinks are available in two flavors: ginger or lemon.

Who we are

The headquarters of our research and development – oriented startup are located in Transylvania.

Fibervar LLC was established with the help of a Diaspora Startup grant, and was supported by the European Institute of Innovation and Technology.

Our team is lead by dr. Peter HANTZ, former postdoc at the European Molecular Biology Laboratory, and the Friedrich Miescher Institute for Biomedical Research.

We intend to transform today's ideas into tomorrow's products. We create innovations that make our lives better and easier.
